

FRANK MCKINNEY'S

SURVIVAL

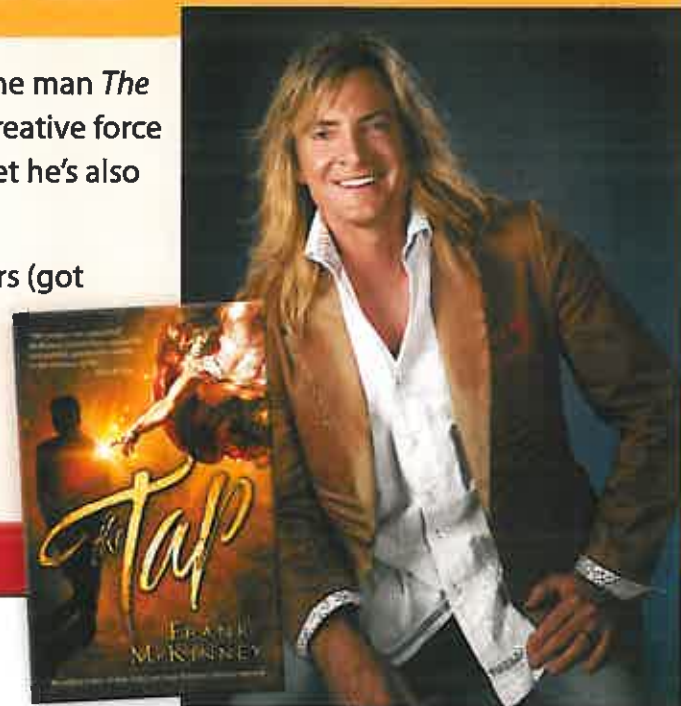

TO

THRIVAL TOUR

Meet Frank McKinney, five-time bestselling author and the man *The Wall Street Journal* called a "real estate rock czar." He's the creative force behind some of the world's most magnificent mansions, yet he's also someone who was once down and almost out.

As a teenager, he attended four high schools in four years (got kicked out of three), and barely graduated with a 1.8 GPA. He left home at 18 with \$50 in his pocket.

What changed? What's the driving force behind his turnaround? How can you feel "The Tap" in your own life?

Come find out! Here are the details:
